

Reaching for the American Dream

Source: Georgetown University Center on Education and the Workforce analysis of Early Childhood Longitudinal Study-Kindergarten (ECLS-K), 2006 data and Education Longitudinal Study of 2002 (public use data), 2013.
 Note: College degrees include associate's degrees and higher. Our data sets contain a gap between eighth and tenth grade. Therefore, we assume that the likelihood of changing scores between eighth and tenth grade is equivalent to the likelihood of changing scores between tenth and twelfth grade.
