

# Nicole Smith

Research Professor and Chief Economist

Nicole Smith is a research professor and chief economist at the Georgetown University Center on Education and the Workforce (CEW), where she leads CEW's econometric and methodological work. Dr. Smith has developed a framework for restructuring long-term occupational and educational projections, which forms the underlying methodology for CEW's reports projecting education demand for occupations in the US economy.

Dr. Smith was born in Trinidad and Tobago and graduated with honors in economics and mathematics from the University of the West Indies (UWI), St. Augustine campus. She was the recipient of the Sir Arthur Lewis Memorial Prize for outstanding research at the master's level at the UWI and was corecipient of the 2007 Arrow Prize for Junior Economists for educational mobility research. She received her PhD in economics from American University in Washington, DC.

Prior to joining CEW, Dr. Smith was a faculty member in economics at Gettysburg College in Pennsylvania and at the University of the West Indies, St. Augustine Campus. Dr. Smith taught classical and modern econometrics, microeconomics, macroeconomics, statistics, mathematics for economists, and Latin American economic development.

Dr. Smith's previous macroeconomic research focused on the political economy of exchange rates and exchange rate volatility in the Commonwealth Caribbean, the motivation for her MS thesis and a joint publication at the Inter-American Development Bank. Her current research investigates the role of education and socioeconomic factors in intergenerational mobility. She is a coauthor of "The Inheritance of Educational Inequality: International Comparisons and Fifty-Year Trends," published in 2007 by the *B.E. Journal of Economic Analysis & Policy*.
